

NOTICE IMPORTANTE :

Cette liste reprend les plantes disponibles de stock dans notre magasin, elle est mise à jour au gré des nouveaux arrivages ou épuisement des articles (1 X par semaine en saison commerciale).

Les articles restent mentionnés tant qu'il reste au moins une unité.

Les plantes cultivées dans le sol qui nécessitent un arrachage (fournies en motte ou en racines nues) sont toujours sur commande et ne sont donc jamais dans cette liste, merci de consulter les autres tarifs.

Glossaire :

C3L 60/80 = plante fournie en conteneur (= pot) de 3 litres dont la taille à l'achat est comprise entre 60 et 80 cm hors du sol.

C25L HT 12/14 = arbre haute tige (= 2 mètre de tronc nu avant les premières branches) dont le tronc a une circonférence comprise entre 12 et 14 cm à un mètre de hauteur et qui est fourni dans un conteneur (= pot) de 25 litres. Dans le même ordre d'idée HT peut être remplacé par 1/2 tige = arbre avec tronc nu sur 1 m 25 cm, ou "bal" (baliveau) = jeune arbre encore pourvu de branches sur toute la hauteur du tronc, cette dernière mention est facultative : souvent seule la hauteur en cm est mentionnée (ex.: C25L 250/300).
